

# Labmix<sup>24</sup> chemical solutions

Labmix24 is specialized to supply Certified Reference Materials, SUS, recalibration samples and consumables. We deliver Environmental, Pharmaceutical, Metal Geological, Industrial samples to universities, laboratories, hospitals and many other industrial producers. We and most of our partners are ISO 9001 certified or accredited to ISO Guide 34 and ISO 17025:2005. Our unique database CRMSearch24 with more than 500.000 products enables you to find your required reference material simple and fast. The innovative calculator CustomMix24 offers you the possibility to create your own organic custom mixture.

Proficiency testing (PT)

Pharmaceutical reference materials

Metals

Industrial and Geological reference material

Environmental matrix reference materials

Clinical reference material

Combustion element analyser standards
